

Scheme Progression Overview and Outcomes for Year 6 (Upper KS2)

This document includes:

- Musical learning focus explained for each Unit of Work, year group and end of Key Stage
- An Overview of Expected Learning Outcomes Year 6 (end of year) linked to the relevant Strand of Musical Learning
- Specific teaching/learning ideas and their outcomes linked to the relevant Strands of Musical Learning for the year group

Musical Learning Focus explained for each Unit of Work, year group and end of Key Stage

Pupils should be taught to sing and play musically with increasing confidence and control. They should develop an understanding of musical composition, organising and manipulating ideas within musical structures and reproducing sounds from aural memory.

— National curriculum in England: music programmes of study, Key Stage 2

The Musical Learning Focus from each Unit of Work progress to the Expected Musical Learning Outcomes for the end of year (see in this document). The children will be able to demonstrate their learning as they work towards the End of Key Stage Expectations. Therefore these outcomes will fulfil the End of Key Stage Expectations (see Assessment Framework) which are in line with national attainment targets for music. **(Use the One-page Lesson Plan and please refer to the End of Key Stage Expectations document relevant to your year group from the Assessment Framework.)**

Ofsted have stated that “*We will not always know the learning outcomes*” so segregated learning objectives at the start of each lesson are not appropriate. Musical teaching and learning is not neat or linear, children do not learn in straight lines. The strands of musical learning, presented within the lesson plans and the on-screen resources, are part of the learning spiral. Over time, children develop new musical skills and concepts, and also revisit established musical skills and concepts. Repeating a musical skill doesn’t mean their progress is slowing down or their development is moving backwards; it enables them to re-enforce their musical understanding in order to improve the quality of their musicianship. To achieve mastery means gaining both a deeper understanding of musical skills and concepts and learning something new.

Each Unit of Work has a focus - an ongoing musical learning focus, a unit-specific focus:

- **Ongoing musical learning focus (learning new musical skills/concepts and revisiting them):** Listen & Appraise, Musical Activities (Games, Singing, Playing), Performing. Improvisation and Composition are covered too but as options.
- **Unit-specific focus -** Musical skills/concepts that may be discrete to a particular unit and style focus (the style or styles of music relevant to the unit).
